Math Weekly Review #16

Go on Math iReady for at least 30 minutes

Monday

1. Find each quotient. $55 \div 1 =$ _____ $55 \div 10 =$ _____ $55 \div 100 =$ _____ $55 \div 1000 =$ _____	2. What is the product 87×10^3? _____
3. Write the number in <u>standard form</u>. $4{,}000 + 300 + 2 + 0.6 + 0.05$ _____	4. Write the number in <u>expanded form</u>. 495.23 _____ _____

Tuesday

5. Find the sum. Show your work! $12.5 + 33.75 =$ _____	6. Find the difference. Show your work! $100 - 25.50 =$ _____
7. Find the product. Show your work! $700 \times 40 =$ _____	8. Find the quotient. Show your work! $2{,}000 \div 200 =$ _____

Wednesday

9. On Monday, Aiden read $\frac{3}{10}$ of a book. On Tuesday, he read another $\frac{5}{12}$ of the book. Is the fraction of the book that Aiden read during those 2 days closer to $0, \frac{1}{2}, 1$?	10. In a timed typing test, Anna typed 63 words per minute. Estimate the number of words she should be able to type in half an hour. (Think of how many minutes are in a half an hour).
11. What is the sum of $2.65 + 3.78$? A. 5.33 B. 5.43 C. 6.33 D. 6.43	12. Abby bought a new rug for her room. The rug is 72 inches by 96 inches. What is the area of Abby's new rug? **Hint: Area=Length x Width**

Thursday

13. Choose all the numbers that could be common denominators for $\frac{2}{3}$ and $\frac{7}{9}$? a. 6 b. 9 c. 18 d. 27 e. 30	14. Choose all the numbers that could be common denominators for $\frac{1}{9}$ and $\frac{1}{2}$? a. 11 b. 16 c. 18 d. 36 e. 45

Don't forget to complete at least 30 minutes of Math iReady this week.
